

Dear chairman Kennard:

The undersigners, all residents of Miami Dade county Florida, respectfully but also strongly demand from the FCC to come through on its original promise to create a LPFM with the local community and small communities in mind. Last year we sent you 4,400 petitions expressing our views and concerns. We had the hope that after January 20<sup>th</sup> the NPRM in which you proposed "to license new 1000 watts low power FM radio stations" would become reality.

The Iglesia Cristiana El Buen Samaritano (The Good Samaritan Church) is willing and able to provide our community with a good LPFM station, but only if the FCC approves of the 1000-watts powered stations. However, without this it is simply impossible for any organization like ours to operate and effectively serve our community. We know we can count on your support and we thank you in advance.

Last year we sent you 4,400 petitions expressing our views and concerns. We had the hope that after January 20<sup>th</sup> the NPRM in which you proposed "to license new 1000 watts low power FM radio stations" would become reality.

The Iglesia Cristiana El Buen Samaritano (The Good Samaritan Church) is willing and able to provide our community with a good LPFM station, but only if the FCC approves of the 1000-watts powered stations. However, without this it is simply impossible for any organization like ours to operate and effectively serve our community. We know we can count on your support and we thank you in advance.

Dear chairman Kennard:

The undersigners, all residents of Miami Dade county Florida, respectfully but also strongly demand from the FCC to come through on its original promise to create a LPFM with the local community and small communities in mind. Last year we sent you 4,400 petitions expressing our views and concerns. We had the hope that after January 20<sup>th</sup> the NPRM in which you proposed "to license new 1000 watts low power FM radio stations" would become reality.

The Iglesia Cristiana El Buen Samaritano (The Good Samaritan Church) is willing and able to provide our community with a good LPFM station, but only if the FCC approves of the 1000-watts powered stations.
